

MANIPAL INSTITUTE OF TECHNOLOGY
MANIPAL
(A constituent unit of MAHE, Manipal)

Tech Tatva '26

CONVERGENCE

FROM THE Director's Office

Since time immemorial, TechTatva has been consistently a massive success and it brings me immense pleasure to host such a spectacular festival. Let us ignite the spirits of young individuals who have yet to embark on the journey of life. The campus hosts a plethora of events, each catering to their own audiences, letting each and every participant hone their skills and put it to the test. We harbour a vast variety of students that are always willing to collaborate with each other. In MIT Manipal, we encourage communication with students from all over the country and encourage unity of thought. I strive to make this festival, not only catering to the young audiences, but also imparting necessary knowledge that will help them in their future endeavours. This festival celebrates unity among the students across the country, and I invite you to participate with open arms.

Dr. Chandrakala C B
Director
Manipal Institute of Technology

About Us

TechTatva is the annual technical fest of Manipal Institute of Technology, bringing together technology, innovation and competition on a common platform. From robotics and automobiles to artificial intelligence, cybersecurity, quantitative finance, biomedical challenges, electronics, astronomy and strategic simulations, TechTatva '26 brings together diverse forms of technological thinking.

This year, 16 categories and 34 events unfold across four alternate realities, creating an experience where participants don't just compete they enter worlds built around different forces, challenges and possibilities.

THINK. BUILD. DECODE. COMPETE.

Convergence

REALITIES REENGINEERED

WHAT IF TECHNOLOGY COULD EXIST ACROSS DIFFERENT REALITIES?
AT TECHTATVA '26, SIXTEEN CATEGORIES COME ALIVE ACROSS FOUR
ALTERNATE WORLDS EACH DEFINED BY ITS OWN ATMOSPHERE, IDENTITY
AND FORCE.

AETHER

Air • Sky • Cosmos

Flight, exploration and the boundless future.

OBSIDIAN

Earth • Stone • Deep

Grounded strength, machinery and things built to withstand force.

Convergence

REALITIES REENGINEERED

EMBER

Fire • Energy • Force

Competition, circuitry, momentum and technology in motion.

ZENITH

Space • Shadow • Void

Mystery, information, investigation and the unknown.

FOUR REALITIES BRING TOGETHER SIXTEEN CATEGORIES FROM MACHINES AND
MARKETS TO AI, CYBERSECURITY, SCIENCE AND STRATEGY.

FOUR REALITIES. SIXTEEN CATEGORIES. ONE TIMELINE.

ENTER A REALITY. CHALLENGE ITS LIMITS. REENGINEER WHAT COMES NEXT.

Acumen

TESSERACT

A campus-wide treasure hunt combining rapid-fire questions, riddles, technical challenges and a final mystery hunt. Teams progress through successive checkpoints, solving clues and completing tasks to reach the final destination.

TEAM SIZE: 2-4 | ROUNDS: 3 | PRIZE POOL: ₹21,000
1ST: ₹9,500 | 2ND: ₹7,000 | 3RD: ₹4,500

HOPELESS OPUS

An immersive online RPG where every decision shapes your fate. Navigate a mysterious collapsing realm through branching storylines, difficult choices and technology-based mini-games.

TEAM SIZE: 1-2 | ROUNDS: 3 | PRIZE POOL: ₹11,000
1ST: ₹6,000 | 2ND: ₹3,000 | 3RD: ₹2,000

Prize Pool:
₹32,000

Chroma

THE SOCIAL NETWORK

A fast-paced collection of mini-games combining trivia, logic, technical knowledge, reflexes and friendly competition — with water-based challenges adding an unexpected twist.

TEAM SIZE: 1 | ROUNDS: 1

TRIAD TACTICS: AI GAME ARENA

Build AI that can compete. Teams develop machine-learning models for Bluff and UNO, followed by a Chess challenge using an approved language model and standardized evaluation.

TEAM SIZE: 1-5 | ROUNDS: 3 | PRIZE POOL: ₹11,000
1ST: ₹5,500 | 2ND: ₹3,500 | 3RD: ₹2,000

Prize Pool:
₹11,000

Gosmic Gon

STARLOCK HOLMES

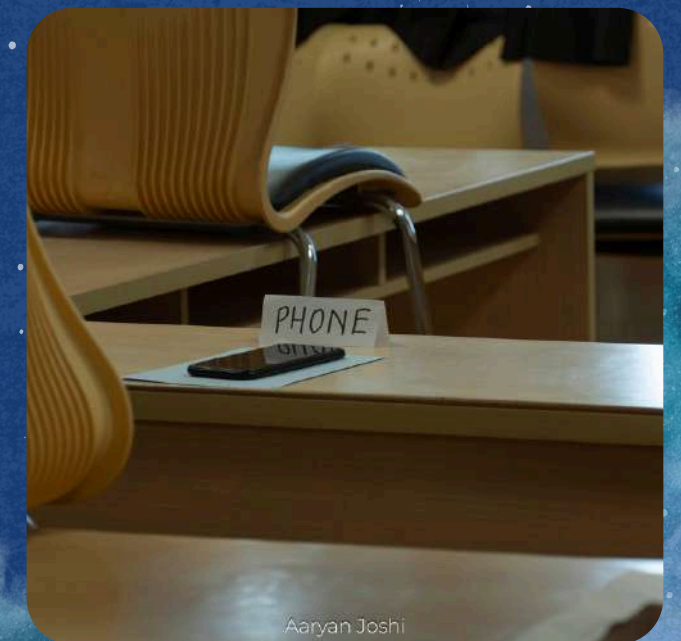

An immersive cosmic murder mystery where teams investigate a case through puzzles, interrogation, evidence hunts and deduction before presenting their final theory.

TEAM SIZE: 2-3 | ROUNDS: 5 | PRIZE POOL: ₹9,500
1ST: ₹5,000 | 2ND: ₹3,000 | 3RD: ₹1,500

SPACE SURVIVAL

A Survivor-style gauntlet aboard a failing spacecraft. Teams face alternating knowledge and physical challenges — from physics and chemistry to ciphers, towers and knots — as their crew gradually shrinks.

TEAM SIZE: 4-6 | ROUNDS: 6 | PRIZE POOL: ₹8000
1ST: ₹4,000 | 2ND: ₹2,500 | 3RD: ₹1,500

Prize Pool:
₹33,500

Gosmic Gon

CELESTIAL LABYRINTH

Begin with a Cosmic Quiz before entering a multi-floor Building Escape. Solve astronomy and physics puzzles, decode passwords and race through obstacles to escape the building first.

TEAM SIZE: 2-3 | ROUNDS: 2 | PRIZE POOL: ₹16,000
1ST: ₹8,000 | 2ND: ₹5,000 | 3RD: ₹3,000

Prize Pool:
₹33,500

Vortex

ICARUS

Design and construct a glider on the spot using provided materials, then take it to the skies. Flight performance is judged on range, stability and payload retention.

TEAM SIZE: 1-3 | ROUNDS: 2 | PRIZE POOL: ₹9,000
1ST: ₹4,000 | 2ND: ₹3,000 | 3RD: ₹2,000

ESCAPE VELOCITY

Build and launch a water-powered rocket using plastic bottles. Teams compete for maximum horizontal range while balancing construction quality, safety and design.

TEAM SIZE: 2-4 | ROUNDS: 2 | PRIZE POOL: ₹10,000
1ST: ₹5,000 | 2ND: ₹3,000 | 3RD: ₹2,000

Prize Pool:
₹19,000

Kraftwagen

OFFROAD MAYHEM

Build your RC car, modify it and conquer increasingly difficult obstacle tracks. Success depends on engineering, creativity, driving skill, teamwork and adaptation.

TEAM SIZE: 2-4 | ROUNDS: 3 | PRIZE POOL: ₹12,500
1ST: ₹7,000 | 2ND: ₹3,500 | 3RD: ₹2,000

PITSTOP

Experience the pressure of a race team in a fast-paced challenge centred around teamwork, quick thinking and precision. No prior experience is required.

TEAM SIZE: 1-3 | ROUNDS: 1 | PRIZE POOL: ₹7,000
1ST: ₹4,000 | 2ND: ₹2,000 | 3RD: ₹1,000

Prize Pool:
₹19,500

Motion Matrix

FASTEST LINE FOLLOWER

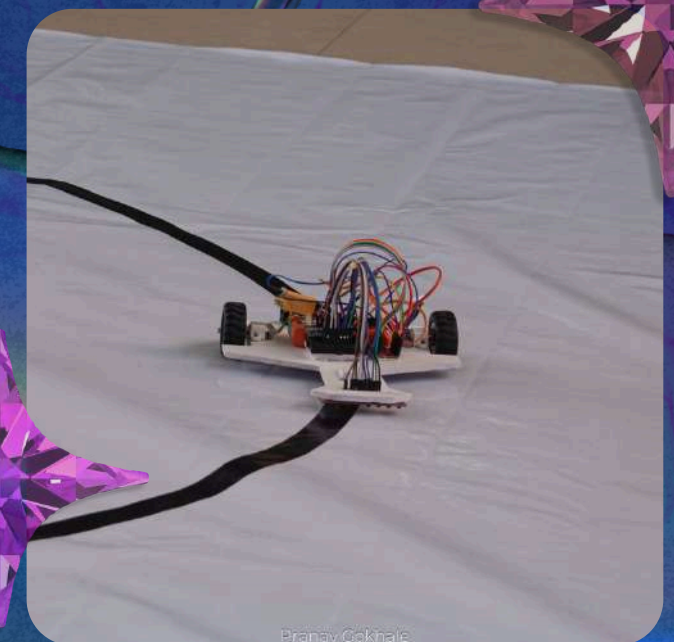

Design and build an autonomous robot that follows a track with speed and precision. Sensor logic, control systems, originality and checkpoint performance determine the winner.

TEAM SIZE: 1-4 | ROUNDS: 2 | PRIZE POOL: ₹22,000
1ST: ₹10,000 | 2ND: ₹7,000 | 3RD: ₹5,000

MAZE SOLVER

Build a compact autonomous MicroMouse capable of navigating an unknown maze from START to FINISH in the shortest possible time.

TEAM SIZE: 1-4 | ROUNDS: 2 | PRIZE POOL: ₹22,000
1ST: ₹10,000 | 2ND: ₹7,000 | 3RD: ₹5,000

Prize Pool:
₹44,000

Nexus

15

INNOFRAME

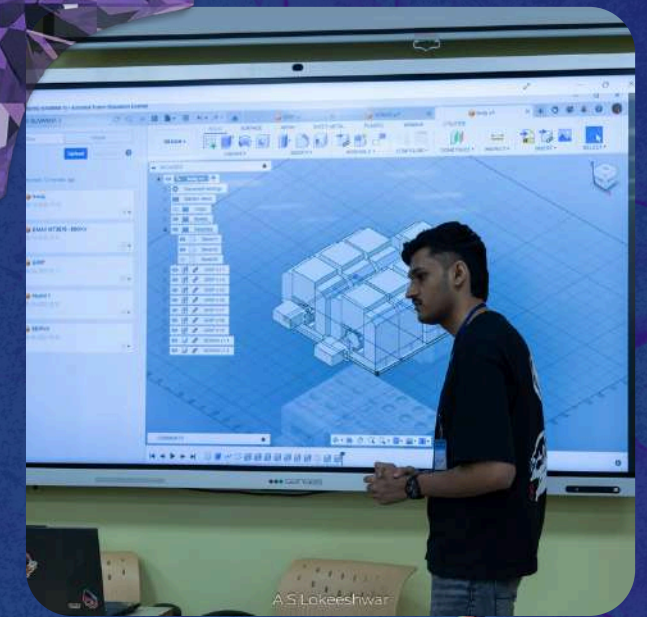

Take a design from CAD to reality. Teams model a roll cage, manufacture it from PVC and put it through testing, with points rewarding weight, manufacturability, accuracy and structural performance.

TEAM SIZE: 4 | ROUNDS: 3 | PRIZE POOL: ₹9,500
1ST: ₹5,000 | 2ND: ₹3,000 | 3RD: ₹1,500

CITYSCAPING

Design a commercially viable city service while balancing budget, sustainability, construction and profitability. Teams must present and defend their planning decisions before judges.

TEAM SIZE: 2-5 | ROUNDS: 3 | PRIZE POOL: ₹11,000
1ST: ₹5,500 | 2ND: ₹3,500 | 3RD: ₹2,000

Prize Pool:
₹20,500

Robowars

15 KG WEIGHT CATEGORY

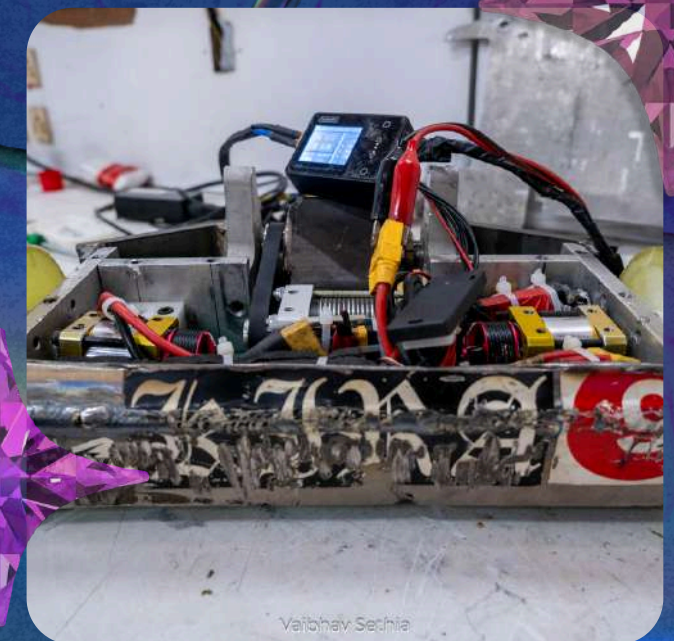

Engineer a combat robot and take it into a double-elimination arena. Three-minute bouts test damage, aggression, control and driving ability.

TEAM SIZE: 3-5 | ROUNDS: 4 | PRIZE POOL: ₹1,80,000
1ST: ₹85,000 | 2ND: ₹60,000 | 3RD: ₹35,000

8 KG WEIGHT CATEGORY

The lighter combat class brings the same mechanical intensity into an 8 KG arena, where engineering, control and strategy determine who survives.

TEAM SIZE: 3-5 | ROUNDS: 4 | PRIZE POOL: ₹1,20,000
1ST: ₹60,000 | 2ND: ₹40,000 | 3RD: ₹20,000

Prize Pool:
₹3,00,000

Bizcomm

QUANT QUEST

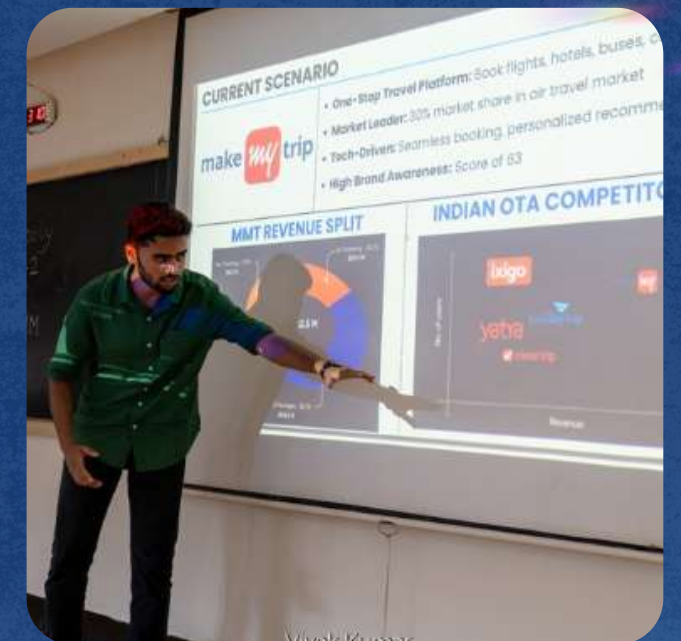

A two-day quantitative trading challenge where teams of two learn the foundations of trading, design a rule-based strategy and implement it using real market data. Strategy performance, risk management and technical implementation determine the final ranking.

TEAM SIZE: 2-3 | ROUNDS: 3 | PRIZE POOL: ₹16,500
1ST: ₹8,000 | 2ND: ₹5,000 | 3RD: ₹3,500

MONOPOLY

A strategy-driven business simulation built around a ₹100 million virtual fund, company and technology auctions, negotiation and alliance formation. Teams acquire assets, build strategic partnerships and defend their final business plan.

TEAM SIZE: 1-4 | ROUNDS: 4 | PRIZE POOL: ₹16,500
1ST: ₹8,000 | 2ND: ₹5,000 | 3RD: ₹3,500

Prize Pool:
₹47,500

Bizzcomm

QUANDRY

A multi-round business simulation that begins with individual decision-making and moves into CEO selection, team formation and crisis management. Participants must build teams, respond to a live Twist Card and defend their solution under pressure.

TEAM SIZE: 1-4 | ROUNDS: 3 | PRIZE POOL: ₹14,500
1ST: ₹6,000 | 2ND: ₹4,500 | 3RD: ₹4,000

Prize Pool:
₹47,500

Mechatron

BATTLESHIP

A technical showdown that moves from knowledge to investigation to engineering challenges before culminating in a 10×10 LED Battleship Arena. Teams earn strikes, gather resources, control territory and protect their fleet.

TEAM SIZE: 2-4 | ROUNDS: 3 | PRIZE POOL: ₹15,000
1ST: ₹8,500 | 2ND: ₹4,500 | 3RD: ₹2,000

Prize Pool:
₹15,000

Quark

CHRONOHUNT

A three-round technical challenge moving from electronics fundamentals to digital circuit puzzles and finally real-world signal detection. Teams build receiver circuits to locate hidden transmitters across AB5.

TEAM SIZE: 4 | ROUNDS: 3 | PRIZE POOL: ₹15,500
1ST: ₹8,500 | 2ND: ₹4,500 | 3RD: ₹2,500

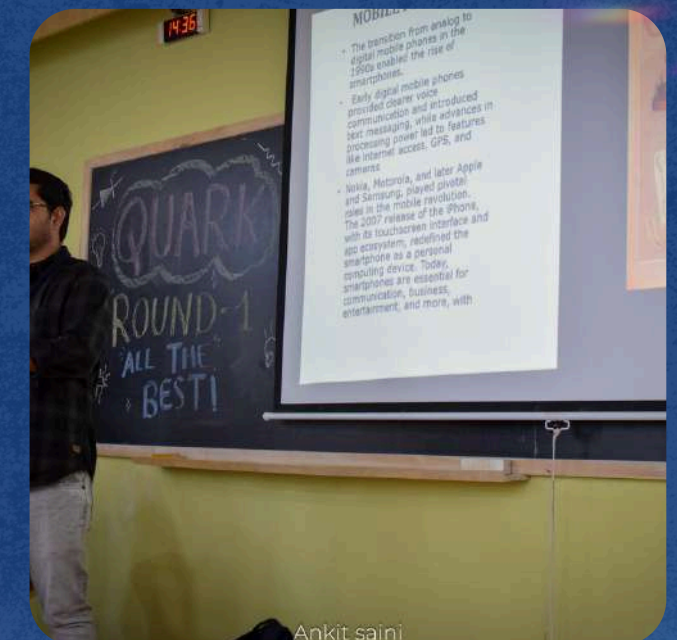

BITFLIP

Test your electronics knowledge before putting it into practice. Teams tackle an electronics and Arduino quiz, followed by an Arduino-based circuit-building challenge using sensors and provided components.

TEAM SIZE: 3-4 | ROUNDS: 2 | PRIZE POOL: ₹11,500
1ST: ₹6,000 | 2ND: ₹3,500 | 3RD: ₹2,000

Ankit saini

Ankit saini

Prize Pool:
₹27,000

Synergetics

BIOWARS

Survival becomes a game of strategy, evolution and scientific knowledge. Guide organisms through hidden evolutionary pathways before facing mini-games and a final rapid-fire showdown.

TEAM SIZE: 2-5 | ROUNDS: 2 | PRIZE POOL: ₹7,000
1ST: ₹3,500 | 2ND: ₹2,000 | 3RD: ₹1,500

CONTAGION - THE OUTBREAK

Test your electronics knowledge before putting it into practice. Teams tackle an electronics and Arduino quiz, followed by an Arduino-based circuit-building challenge using sensors and provided components.

TEAM SIZE: 3 | ROUNDS: 2 | PRIZE POOL: ₹7,000
1ST: ₹3,500 | 2ND: ₹2,000 | 3RD: ₹1,500

Preethi Saranya

Prize Pool:
₹14,000

Cached

CRYPTIC FINDS

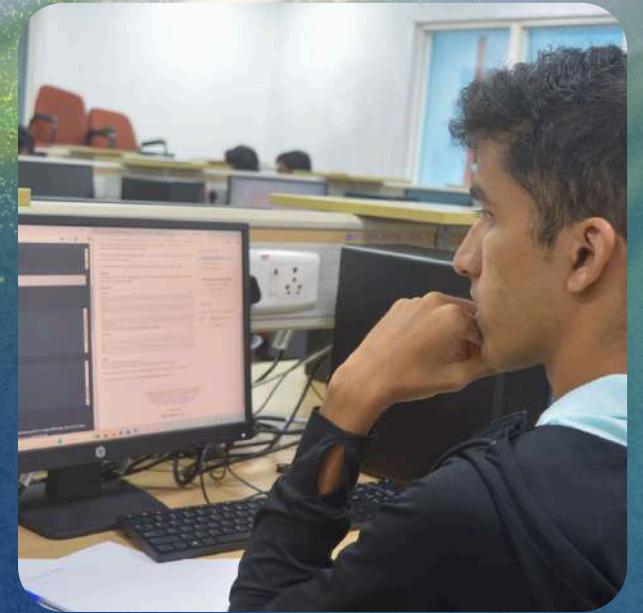

A virtual adventure through a gripping storyline where hidden flags unlock new clues and challenges. Combine coding, OSINT, riddles and puzzles to progress through the story.

TEAM SIZE: 1-3 | ROUNDS: 1 | PRIZE POOL: ₹12,000
1ST: ₹6,500 | 2ND: ₹3,500 | 3RD: ₹2,000

MIT OPEN

A two-day competitive programming challenge inspired by ACM-ICPC. Qualifiers lead into Blind Coding and a Swap Lockout Finale, where communication and adaptability become as important as coding skill.

TEAM SIZE: SOLO/DUO IN ROUND 1; DUO THEREAFTER | ROUNDS: 3 | PRIZE POOL: ₹10,000
1ST: ₹6,500 | 2ND: ₹3,500 | 3RD: ₹2,000

Prize Pool:
₹24,000

Cognitia

DATA TYCOON

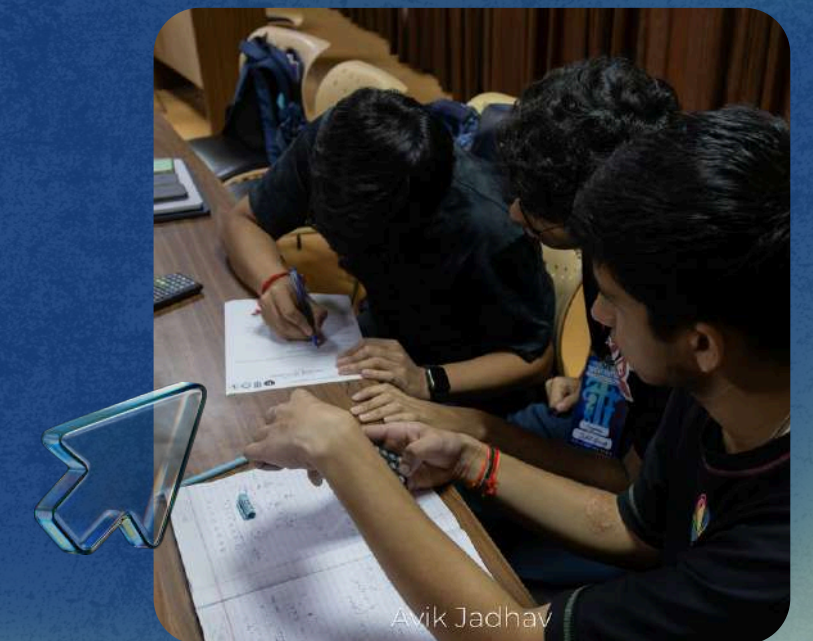

Step into the role of a business leader and transform a struggling company into a market leader. Analyse industry data, allocate investments and adapt your strategy when a Black Swan Event disrupts the market.

TEAM SIZE: 2-3 | ROUNDS: 3 | PRIZE POOL: ₹11,000
1ST: ₹5,500 | 2ND: ₹3,500 | 3RD: ₹2,000

THE LAST DATASET

A two-day competitive programming challenge inspired by ACM-ICPC. Qualifiers lead into Blind Coding and a Swap Lockout Finale, where communication and adaptability become as important as coding skill.

TEAM SIZE: 1-2 | ROUNDS: 1 | PRIZE POOL: ₹11,000
1ST: ₹5,500 | 2ND: ₹3,500 | 3RD: ₹2,000

Prize Pool:
₹22,000

Cryptoss

ORDER OF CHAOS

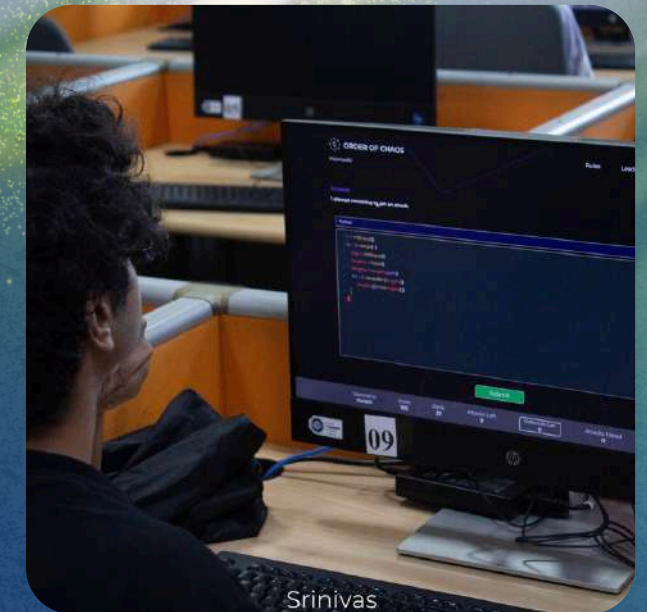

A three-hour individual coding battle combining 20 DSA problems with a live strategic layer. Solve problems, challenge rivals, manage points and use buffs or debuffs to climb the leaderboard.

TEAM SIZE: 1 | ROUNDS: 1 | PRIZE POOL: ₹8,000
1ST: ₹4,000 | 2ND: ₹2,500 | 3RD: ₹1,500

EULER'S SPHERE

Three modes of thinking. Computational mathematics, interactive game theory and data analysis come together in one competition that rewards individual skill and team strategy.

TEAM SIZE: 1-3 | ROUNDS: 3 | PRIZE POOL: ₹7,000
1ST: ₹3,500 | 2ND: ₹2,000 | 3RD: ₹1,500

Prize Pool:
₹15,000

Kernel

PROMPT ARENA

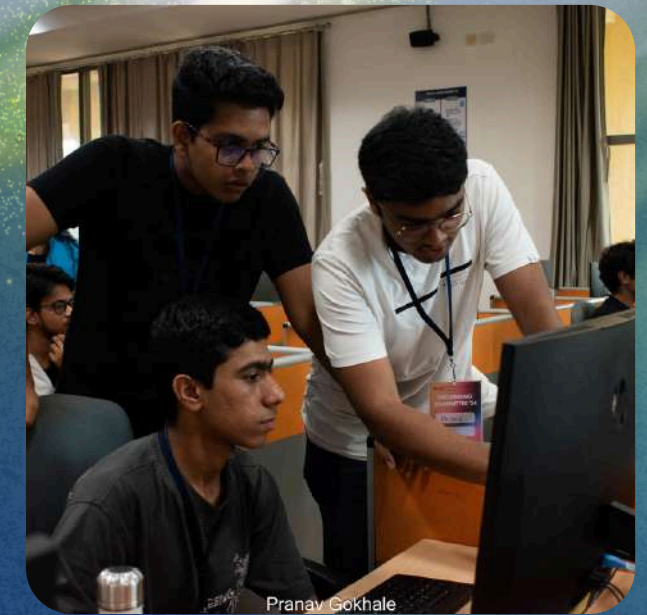

Interrogate a network of LLM-powered agents, each holding fragments of information. Craft precise prompts, uncover hidden data and reconstruct the complete narrative while using as few tokens as possible.

TEAM SIZE: 2-3 | ROUNDS: 1 | PRIZE POOL: ₹10,000
1ST: ₹5,000 | 2ND: ₹3,000 | 3RD: ₹2,000

TECH MAFIA

A cyberattack has compromised NeoGrid Technologies. With secret roles such as Hacker, Cyber Analyst, System Administrator and Employee, participants must investigate, communicate and identify the hidden threat.

TEAM SIZE: 1 | ROUNDS: 2 | PRIZE POOL: ₹8,000
1ST: ₹4,000 | 2ND: ₹2,500 | 3RD: ₹1,500

Prize Pool:
₹33,000

Kernel

CAPTURE THE FLAG

Hunt hidden flags across cybersecurity challenges involving cryptography, reverse engineering, web security, forensics and more. Solve vulnerabilities, think critically and climb the leaderboard.

TEAM SIZE: 1-3 | ROUNDS: 1 | PRIZE POOL: ₹15,000
1ST: ₹8,500 | 2ND: ₹4,500 | 3RD: ₹2,000

Prize Pool:
₹33,000
